

# Penguins, Swans Kingfishers

## Our key learning this week within our topic: **Toys** 29.4.24

We are still enjoying seeing the old toys that the children are bringing in from home. Thank you to those who have. This week we will be concentrating on what a sentence looks like, remembering all the things we need to consider: to start with a capital letter, to end with either a full stop, question mark or exclamation mark; to add adjectives, conjunctions.

### Our key learning in Maths:

This week in maths we are practising our addition facts for 20, using doubles and beginning to explore bridging when adding numbers that go above the ten. Eg:  $7 + 6$

### Reading

Please continue to read every day or as many times as possible each week.

### This week's phonics to practise

**Level 5 - level 5 ed (jumped, mended)**

Some children are working on level 3 / 4 or early 5 **ie (pie) y (sunny)**

### Spellings

**Any eye were was love put friend also**

### Additional ways to support your child in order of priority

**Outdoor learning**— During school we went outside and collected objects to fill in an alphabet. Together we were able to find almost every letter if we thought about the name or size or another adjective. Have a go! How many can you find? Discuss which things are man made and which are natural.

**English**— We have been practising alien and real words using our phonics. Can you think up some really exciting words. Alien words are ones that we don't use in English but can still be sounded out and read. Eg: zamp, trizzle, sprod.
